

Innovation in Assessment

Dynamic Study Modules use the latest developments in cognitive science to help students study by adapting to their performance in real time. Students build confidence and understanding, enabling them to participate and perform better, both in and out of class. Available on smartphones, tablets, and computers.

Incorrect; Try Again

You labeled 2 of 7 targets incorrectly. You have labeled target (a) incorrectly. Notice that this organelle has a smooth membrane. It is involved in building macromolecules, but not proteins.

UPDATED! Test Bank questions have been analyzed and revised with student success in mind. Revisions account for how students read, analyze, and engage with the content.

Wrong-Answer Feedback Using data gathered from all of the students using the program, **Mastering Biology** offers wrong-answer feedback that is specific to each student. Rather than simply providing feedback of the “right/wrong/try again” variety, Mastering Biology guides students toward the correct final answer without giving the answer away.

“I wouldn’t have passed my class without Mastering Biology. The feedback doesn’t just tell me I’m wrong, it gave me a paragraph of feedback on why I was wrong and how I could better understand it.”

—Student, University of Texas at Arlington
